

## Who needs support and help in your community?

Homeless individuals, families, children New people moving into your neighborhood Refugees **Immigrants** Elderly people living at home Elderly people living in an institution Military Families Students who have lost a loved one Disabled students New moms and babies (esp. poor) Students in poverty Students who are homeless Abused or neglected animals Children in foster care People in poverty lacking food, clothing, school supplies Students who are truant, dropping out Victims of violence or crime People who are dangerously sick, hospitalized Students who are being bullied People dealing with a serious tragedy

## **Ideas for Projects**

Educate students about misusing social media
Start an anti-bullying program
Locate broken sidewalks, dangerous places, messy areas
Paint a mural on an old wall, put up sculptures, clean a yard or lot
Contribute to scientific research by building bird feeders and logging birds,
Sample groundwater, measure rainfall or light pollution or noise pollution
Create a health and wellness cookbook for your families
Hold a biking clinic and workshop

Plant a butterfly garden, or a rain garden, or put up a bee hotel Work on a plan to control traffic around the school Start or improve on a school-wide recycling plan Reduce cafeteria waste Identify trees in the area and plant some of the best kinds Test for water quality Make the walk to school safer Support domestic animal programs Convince people to register to vote Beautify something ugly, paint a mural, clean a park Help the environment, plant a green roof, insulate homes, reduce energy use Promote voting Raise awareness about truancy laws Raise awareness about immigration laws and policy Raise awareness about the rights and responsibilities of citizenship Evaluate your school security Raise awareness about distracted driving Hold a bicycle clinic Join a local, national, or international research project with Citizen Science:

## What community problems do you see?

http://www.scientificamerican.com/citizen-science/?startRow=21

Abandoned houses, dangerous empty lots?
Traffic around schools, parks, businesses?
Broken sidewalks or curbs not cut for wheelchairs?
Stray animals, dogs and cats?
Graffiti?
Discarded items, tires, appliances, trash?
Obstacles for wheelchairs in public places?
